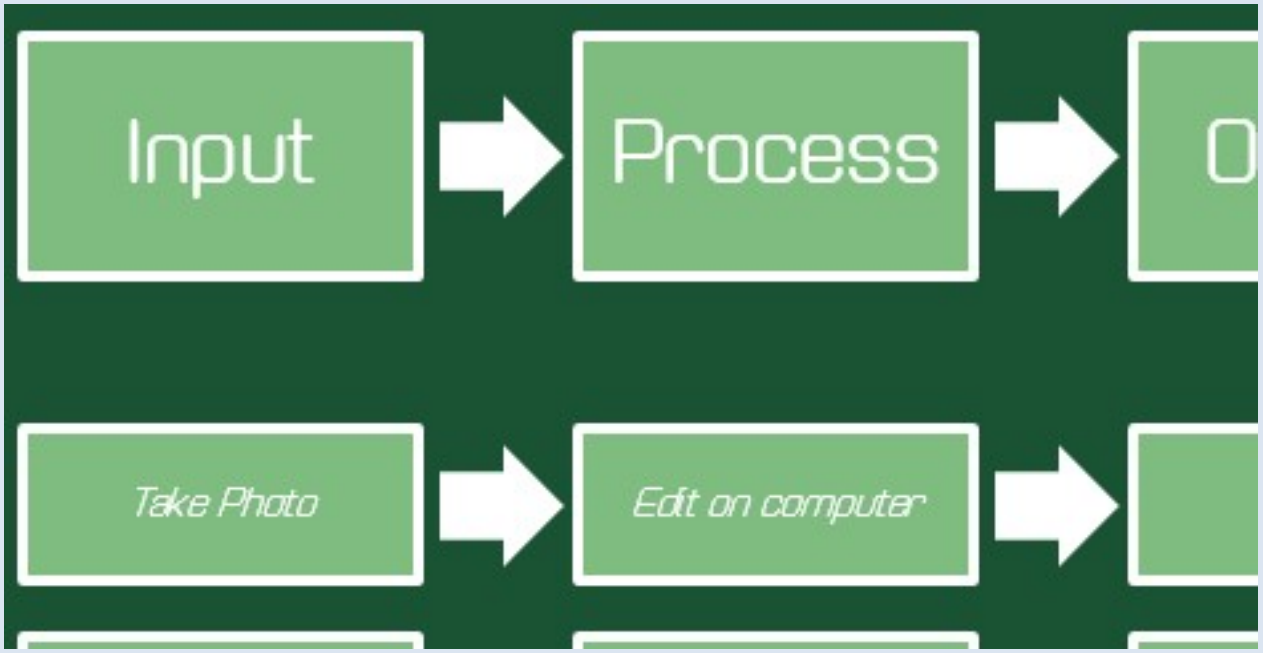
L2 Input and Output

Website help: https://www.bbc.co.uk/bitesize/guides/zqg9q6f/revision/1

KeyLearningQuestion Describe what we mean by Input, Process, Output? **KLQ** Describe what we mean by Input, Process, Output?	
Input, Process, Output	
In the PowerPoint you saw 2 examples of the input process output cycle.	

Add 2 more of your own in the table to the right.



Input	Process	Output

Input and Output Devices

Complete the table stating which devices are input or output devices and write a brief description of what it does.

Peripheral	Input or Output	What does it do?
Digital Camera		
Printer		
Scanner		
Monitor		
Mouse		

Keyboard		
Webcam		
Touch Screen		

Extension

Sensors

Computing devices often use sensors to detect what is happening.
For each of these different type of sensors state an every day item that uses them and explain how it is used.

Sensor	What is it used in	How is it used in the system
Motion Sensor	Burglar Alarm	
Light		Automatically turns on a cars headlights when it gets dark
